

KeenTech, LLC

EOD TRAINING AND SUPPORT

KeenTech, LLC provides on-site training and support to the military and law enforcement Explosive Ordnance Disposal community. This includes training in basic EOD electronics, and reverse engineering devices recovered from theater. Once recovered circuits have been reverse engineered, circuit boards are manufactured and made available for sale to be used as training aids in the classroom. KeenTech, LLC is an SBA HUBZone approved company.

Areas of Training Expertise:

- Basic EOD Electronics
- Advanced EOD Electronics
- EOD Trigger Circuits
- Methods of Wire Attack
- Alarm Bypass Techniques
- Classroom Training Aids
- Trigger Circuit Reverse Engineering

Client List:

- U.S. Army
- U.S. Navy
- U.S. Marine Corps
- State Highway Patrol
- Municipal Police Departments
- General Dynamics

KeenTech, LLC brings to the classroom over 50 years of practical experience in the field of electronics. This in-depth knowledge makes it possible to present the subject material in a manner that is easy to understand and relate to. Many 'after action reports' state it was the best course in electronics they have ever had.

Training is accomplished through the use of a whiteboard, student book, and hands-on experience. No over-head projector is used.

Mr. Keener received a certificate of commendation from a base commander for a training exercise involving the base EOD team, the local sheriff's department, and the state police.
